

BAHAA EBRAHEEM

Full Stack Developer

Syria - Damascus State | +963 991 640 012 | Bahaa.Ebraheem812@Gmail.com | [LinkedIn Profile](#) | [GitHub Portfolio](#)

SUMMARY

Mid-Level Full Stack Developer with 5+ years of hands-on experience building web applications using ASP.NET Core, React, Blazor, and SQL Server. Strong in backend development, API integration, and clean architecture. Experienced in delivering features end-to-end, improving performance, and collaborating with cross-functional teams. Previously contributed to award platforms, enterprise systems, and real-time applications.

TECHNICAL SKILLS

- **Backend:** ASP.NET Core (10/9), ASP.NET MVC, Microservices, Signal R (Web Sockets), REST API, GraphQL, ABP Framework, Entity Framework Core.
 - **Frontend:** React 19, Vite, Tailwind CSS, TanStack Query, Blazor (WASM/Server), Angular, TypeScript, RxJS, Syncfusion, Bootstrap, DevExpress.
 - **AI & Integrations:** Google Gemini, OpenAI API, Prompt Engineering, AI Image Generation, Background AI Jobs, WhatsApp Business API, Webhooks, OpenTelemetry.
 - **Mobile & Desktop:** Flutter (mobile / cross-platform), Electron (Windows desktop), Windows Forms (C#).
 - **Databases:** SQL Server, PostgreSQL, MongoDB, Oracle, [ADO.NET](#).
 - **DevOps & Cloud:** Docker, Azure DevOps, AWS, GitHub, CI/CD Pipelines, TFS, PowerShell.
 - **Architecture & Practices:** Clean Architecture, Microservices, CQRS, Domain-Driven Design, Unit Testing (xUnit), Agile/Scrum.
-

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | [HA Consultancy](#) 01/2026 – Present | UAE (Remote)

- **New Look** – AI-powered grooming & salon-management platform (a **Fresha** alternative) with smart consultations and quality control. Integrated **Google Gemini 3.1** (Pro + image model) to generate **8 personalized hairstyle suggestions** from 6-angle client photos, plus AI face-shape analysis and AI-driven service plans. Built with **ASP.NET Core**, **React 19 / TypeScript**, **Signal R** real-time updates, **WhatsApp Business API** delivery, multi-branch role-based access, and an **Electron** chair-station with OBSBot camera.

Senior Full Stack Developer | [NETAQ For E-Solutions](#) 01/2025 – 06/2026 | Abu Dhabi, UAE (Remote)

- **Emirates Arabian Horses Society (EAHS)** : Architected a scalable backend using **ASP.NET Core 10** with **Umbraco 17 CMS**. Developed a modern **React** frontend and cross-platform mobile applications using **Flutter**.
- **Stallions Semen Market** : Designed and implemented a high-performance backend using **ASP.NET Core MVC**. Applied **idempotency** keys, row-level locking, and **concurrency-safe** transaction logic to guarantee accurate dose selling and eliminate race conditions in high-traffic scenarios.
- **Abu Dhabi Excellence Award Portal**: **Abu Dhabi Excellence Award Portal** — Architected a scalable backend using **ASP.NET Core 10** with **Umbraco 17 CMS**. Developed a modern **React** frontend.
 - **GraphQL unified API layer** for optimized querying and frontend flexibility
 - **REST endpoints** maintained for backward compatibility
 - **Open Telemetry integration** for distributed tracing, metrics, and performance insights
 - **Umbraco 17 CMS** integrated as a **toggleable plugin** (enable/disable per client)

- **[Fatima Bint Mubarak Women Sport Award](#)** : Developed and enhanced key modules of the award's platform using **ASP.NET Core MVC**, supporting a regional initiative that celebrates and empowers women in sports.
- **[Individual Excellence Medals Award](#)** : Developed core components of the award platform using **ASP.NET Core MVC**, supporting a national initiative that recognizes outstanding individual achievements.
- **[Khalifa Award For Education](#)** : Developed key backend and frontend components for the Khalifa Award for Education platform using **ASP.NET Core MVC**, improving submission workflows and evaluation processes.
- **[Kanz Al Jeel](#)** : Developed and enhanced core modules of the award platform using **ASP.NET Core MVC**, supporting a cultural initiative launched by the Abu Dhabi Arabic Language Centre to honor Nabati poetry, folkloric studies, and research celebrating the region's poetic heritage.

Senior Full Stack Developer | [MIS Solutions](#) 09/2022 – 10/2025 | *Damascus, Syria*

- **[EMPS – Remittance Management System](#)**:
 - **Microservices Architecture**: Designed and implemented a Microservices-based system to ensure high availability and independent service scalability.
 - **Core Tech**: Built using [ASP.NET Core 7](#) and **ABP Framework**.
 - **Real-time Features**: Integrated **Blazor WASM** with **Signal R** for instantaneous transaction updates.
 - **Real-Time Barcode Process**: Engineered a high-speed synchronization bridge between **Blazor Web Assembly** and **Windows Desktop Applications** for industrial-grade barcode scanning and printing.

Backend Developer | **Solutions LLC Company** 01/2019 – 06/2022 | *Dubai, UAE (Remote)*

- Developed enterprise-level web applications using [ASP.NET MVC](#).
- Optimized complex SQL Server queries and database schemas, significantly improving data retrieval performance.

FEATURED PROJECTS

- **[Webhook Service](#)**: A scalable notification engine built with [ASP.NET Core 9](#) and **Angular**. Features advanced caching, indexing, and is fully **Dockerized**.
- **[Library Management System](#)**: A full-stack solution featuring a **Flutter** mobile app and a **Node.js** /**Express** backend with **MongoDB** and **JWT** security.

EDUCATION

- **Master in Web Science** | [Syrian Virtual University](#) (2024)
- **Bachelor of Software Engineering** | [Aleppo University](#) (2016) | **GPA: 80.1 / 100**

LANGUAGES

- **English**: Proficient (Technical & Professional)
- **Arabic**: Native
